Biology and Fertility of Soils

Founded in 1985
by J. C. G. Ottow

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), all translation rights as well as the rights to publish the article in any electronic form. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA

Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0340-0727, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

The Canada Institute for Scientific and Technical Information (CISTI) provides a comprehensive, world-wide document delivery service for all Springer-Verlag journals. For more information, or to place an order for a copyright-cleared Springer-Verlag document, please contact Client Assistant, Document Delivery, Canada Institute for Scientific and Technical Information, Ottawa K1A 0S2, Canada (Tel: 613-993-9251; Fax: 613-952-8243; e-mail: cisti.docdel@nrc.ca).

Contents of Volume 29 · 1999

Acosta-Martínez V, Reicher Z, Bischoff M, Turco RF: The role of tree leaf mulch and nitrogen fertilizer on turfgrass soil quality 55
Adachi K → Wang B
Agbaji AS → Agbenin JO
Agbaji EB → Agbenin JO
Agbenin JO, Agbaji EB, Suleiman I, Agbaji AS: Assessment of nitrogen mineralization potential and availability from neem seed residue in a savanna soil 408
Ali R → Mahmood T
Ananyeva ND, Demkina TS, Jones WJ, Cabrera ML, Steen WC: Microbial biomass in soils of Russia under long-term management practices 291
Andreux F → Koutika L-S
Araujo Y, López-Hernández D: Earthworm populations in a savanna-agroforestry system of Venezuelan Amazonia 413
Arcara PG, Gamba C, Bidini D, Marchetti R: The effect of urea and pig slurry fertilization on denitrification, direct nitrous oxide emission, volatile fatty acids, water-soluble carbon and anthrone-reactive carbon in maize-cropped soil from the Po plain (Modena, Italy) 270
Azam F → Mahmood T

Barahona MA → Inubushi K
Bardgett RD, McAlister E: The measurement of soil fungal:bacterial biomass ratios as an indicator of ecosystem self-regulation in temperate meadow grasslands 282
Bashan Y: Interactions of *Azospirillum* spp. in soils: a review 246
Benckiser G → Fey A
Bending GD, Turner MK: Interaction of biochemical quality and particle size of crop residues and its effect on the microbial biomass and nitrogen dynamics following incorporation into soil 319
Beros P → Ponge J-F
Bidini D → Arcara PG
Bischoff M → Acosta-Martínez V
Blair JM → O'Lear HA
Bollmann A, Koschorreck M, Meuser K, Conrad R: Comparison of two different methods to measure nitric oxide turnover in soils 104
Bora S → Kaushal BR
Boul HL → Megharaj M
Briones A → Revsbech NP
Brümmer GW → Geissen V
Brussaard L → Mando A

Cabaneiro A → González-Prieto SJ
Cabrera ML → Ananyeva ND
Cameron KC → Zaman M
Carballas T → González-Prieto SJ
Castro A → González-Prieto SJ
Cerri CC → Koutika L-S
Chander K → Goyal S
Choné T → Koutika L-S
Christensen M → Stahl PD
Cluzeau D → Jégou D
Conrad R → Bollmann A

Dadarwal KR → Sindhu SS
Das KK → Setua GC
De Boer W, Gerards S, Klein Gunnewiek PJA, Modderman R: Response of the chitinolytic microbial community to chitin amendments of dune soils 170
Delhaye L → Ponge J-F
Demkina TS → Ananyeva ND
Devigne E → Ponge J-F
Di HJ → Zaman M
Dileep Kumar BS: Fusarial wilt suppression and crop improvement through two rhizobacterial strains in chick pea growing in soils infested with Fusarium *oxysporum* f.sp. *ciceris* 87
Dinel H → Paré T
Ding Y → Wang B
Dröge M, Pühler A, Selbitschka W: Horizontal gene transfer among bacteria in terrestrial and aquatic habitats as assessed by microcosm and field studies 221

Entry JA: Influence of nitrogen on atrazine and 2, 4 dichlorophenoxyacetic acid mineralization in blackwater and redwater forested wetland soils 348

Fey A, Benckiser G, Ottow JCG: Emissions of nitrous oxide from a constructed wetland using a groundfilter and macrophytes in waste-water purification of a dairy farm 354
Frampton CM → Zaman M
Frielinghaus M → Höflich G

Gamba C → Arcara PG
Geissen V, Brümmer GW: Decomposition rates and feeding activities of soil fauna in deciduous forest soils in relation to soil chemical parameters following liming and fertilization 335
Gerards S → De Boer W
Ghosh JK → Setua GC
Glick BR → Holguin G
Gonzáles-López J → Rodelas B
González-Prieto SJ, Cabaneiro A, Castro A, Villar MC, Martín A, Carballas T: Obtainment of a carbon-13-, nitrogen-15-labelled burnt soil 434
Goyal S, Chander K, Mundra MC, Kapoor KK: Influence of inorganic fertilizers and organic amendments on soil organic matter and soil microbial properties under tropical conditions 196
Groffman PM: Carbon additions increase nitrogen availability in northern hardwood forest soils 430
Guo Y → Wang B
Gupta SK → Sindhu SS

Hallaire V → Jégou D
Hassink J → Koutika L-S
Hatch DJ → Patra AK
Höflich G, Tauschke M, Kühn G, Werner K, Frielinghaus M, Höhn W: Influence of long-term conservation tillage on soil and rhizosphere microorganisms 81
Höhn W → Höflich G
Holguin G, Patten CL, Glick BR: Genetics and molecular biology of *Azospirillium* 10
Hopkins DW → Šimek M
Hubbard VC, Jordan D, Stecker JA: Earthworm response to rotation and tillage in a Missouri claypan soil 343

Inubushi K, Barahona MA, Yamakawa K: Effects of salts and moisture content on N_2O emission and nitrogen dynamics in Yellow soil and Andosol in model experiments 401

Jarvis SC → Kerley SJ
Jarvis SC → Patra AK
Jégou D, Hallaire V, Cluzeau D, Tréhen P: Characterization of the burrow system of the earthworms *Lumbricus terrestris* and *Aporrectodea giardi* using X-ray computed tomography and image analysis 314
Johnsen S → Rakshit SK
Jones WJ → Ananyeva ND
Jordan D → Hubbard VC

Kalčík J → Šimek M
Kandpal B → Kaushal BR
Kapoor KK → Goyal S
Kar PP, Mishra S, Singh DP: Influence of gibberellic acid on the sporulation of *Azolla caroliniana, Azolla microphylla* and *Azolla pinnata* 424
Kar R → Setua GC
Kaushal BR, Bora S, Kandpal B: Growth and cocoon production by the earthworm *Metaphire houletti* (Oligochaeta) in different food sources 394
Kerley SJ, Jarvis SC: The use of nitrogen-15 natural abundance in white clover (*Trifolium repens* L.) to determine nitrogen fixation under different management practices 437
Kerley SJ, Jarvis SC: The use of ^{15}N natural abudance variation to examine plant and soil organic fractions in pasture under different management practises 135
Keudel M, Schrader S: Axial and radial pressure exerted by earthworms of different ecological groups 262
Klein Gunnewiek PJA → De Boer W
Klironomos JN, Moutoglis P: Colonization of nonmycorrhizal plants by mycorrhizal neighbours as influenced by the collembolan, *Folsomia candida* 277
Klose S, Moore JM, Tabatabai MA: Arylsulfatase activity of microbial biomass in soils as affected by cropping systems 46
Koschorreck M → Bollmann A
Koutika L-S, Andreux F, Hassink J, Choné T, Cerri CC: Characterization of organic matter in topsoils under rain

forest and pasture in the eastern Brazilian Amazon basin 309
Kühn G → Höflich G

Lakshminarasimhan C → Muthukumarasamy R
Levieux C → Ponge J-F
Li Z → Wang B
Lipson DA, Raab TK, Schmidt SK, Monson RK: Variation in competitive abilities of plants and microbes for specific amino acids 257
Loan NT → Rakshit SK
López-Hernández D → Araujo Y

Mahmood T, Ali R, Azam F, Malik KA: Comparison of two versions of the acetylene inhibition/soil core method for measuring denitrification loss from an irrigated wheat field 328
Malik KA → Mahmood T
Mando A, Brussaard L: Contribution of termites to the breakdown of straw under Sahelian conditions 332
Marchetti R → Arcara PG
Martín A → González-Prieto SJ
Martínez-Toledo MV → Rodelas B
Martín-Olmedo P, Rees RM: Short-term N availability in response to dissolved-organic-carbon from poultry manure, alone or in combination with cellulose 386
McAlister E → Bardgett RD
McCarty GW: Modes of action of nitrification inhibitors 1
Megharaj M, Boul HL, Thiele JH: Effects of DDT and its metabolites on soil algae and enzymatic activity 130
Meuser K → Bollmann A
Mishra S → Kar PP
Modderman R → De Boer W
Monson RK → Lipson DA
Moore JM → Klose S
Moutoglis P → Klironomos JN
Mundra MC → Goyal S
Muthukumarasamy R, Revathi G, Lakshminarasimhan C: Influence of N fertilisation on the isolation of *Acetobacter diazotrophicus* and *Herbaspirillum* spp. from Indian sugarcane varieties 157

Odendaal JP, Reinecke AJ: The toxicity of sublethal lead concentrations for the woodlouse, *Porcellio laevis* (Crustacea, Isopoda) 146
Oenema O → van den Pol-van Dasselaar A
O'Lear HA, Blair JM: Responses of soil microarthropods to changes in soil water availability in tallgrass prairie 207
Ottow JCG → Fey A

Panda R, Pati SS, Sahu SK: Accumulation of zinc and its effects on the growth, reproduction and life cycle of *Drawida willsi* (Oligochaeta), a dominant earthworm in Indian crop fields 419
Paré T, Dinel H, Schnitzer M: Extractability of trace metals during co-composting of biosolids and municipal solid wastes 31
Parkin TB → Stahl PD
Parsons JW → Rahman MK
